Sat, Nov 4 · 2–3pm

Anderson-Foothill Branch

Welcome to Scientific Saturdays, a chance to bust out of the classroom and play with scientific concepts in a hands-on way. In this month's experiment we'll see if lava lamps are powered by groovy magic, or if their chill glow comes from physical and chemical reactions.

STRANGER THINGS TEEN DIY

Sat, Nov 4 · 1–2pm

Chapman Branch

This month we celebrate the return of *Stranger Things* with this teen DIY craft session sure to make the residents of Hawkins proud. We'll be making keychains and magnets featuring Eleven, Toothless, and all your other favorite *Stranger Things* characters.
